

## Movement that inspires

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving. It's why we create the spaces and the time you need to bring ideas to life.

# The Sonet

Movement that inspires

# Driven by instinct

The new Sonet is here to set you free. Chiseled to perfection, raw in power, and loaded with tech, it's built to give you a one-of-a-kind driving experience. So, get in and let your wild instincts take over.

## Charisma to spare

To match its go-anywhere capabilities, the new Kia Sonet features sporty SUV contours and trim elements, along with a versatile rear hatch that makes traveling and running errands a breeze. It's the perfect combination of fun and functionality.

1. Full LED headlamps with LED DRLs The alluring shape of the Sonet's front grill and light housings is inspired by the eyes and nose of a tiger.

2. Star Map LED Connected Tail Lamps Details that make it unique. Lights designed in a very futuristic style that not only complement these features, but also merge with the design, highlighting it.

3. C-pillars The sturdy C-pillars behind the rear doors feature sporty trim accents that highlight the shapes of the tailgate and rear side windows.

4. Crystal Cut Alloy Wheels 16"-inch Sporty design give your wheels a striking spin as you prowl the streets.

**10.25" full-colour super vision cluster** Keeps you abreast of what's going on under the hood by providing real-time and vehicle status updates.

**Wireless smartphone charger** Charge a compatible mobile phone wirelessly on the cooled pad at the front of the center console.

**6 Speakers** Let's your favorite tracks calm you through the chaos on the streets.

## High-tech meets low-stress

View the road from a commanding height, with sufficient comfort and technology to keep your mind at ease. The refined Kia Sonet gives everyone plenty of room to stretch, and offers convenient new connectivity to help you stay informed and entertained.

8-inch display audio & smart phone connectivity In addition to its easy touch controls for the audio system, the 8-inch TFT-LCD audio display can show the screen image of a paired, compatible mobile phone by wireless phone projection using the Android Auto and Apple Carplay apps.

Rear View Monitor (RVM) When the transmission is in reverse, the 8-inch audio display shows the area behind the Sonet, with parking guidelines superimposed on the video image.

## Quality time, all the time

Everyone can ride comfortably on long trips thanks to plenty of front and rear seat headroom and legroom. The seats are firm and comfortable, while cupholders, USB outlets, and storage areas are well within reach of every occupant.

**Auto Dimming Mirror** The Auto dimming mirror automatically dims the harsh glare of reflecting lights from behind vehicles for non-disruptive driving experience.

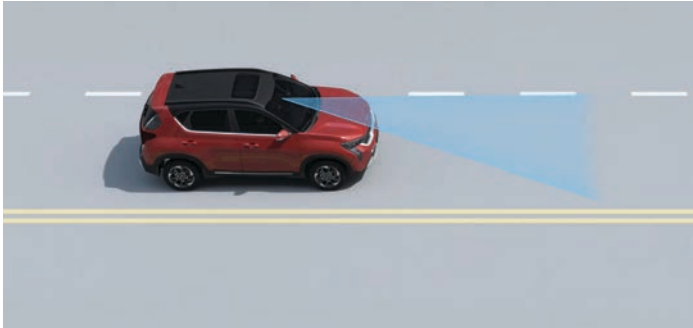

**Power Sunroof** Gives compact SUV enthusiasts a chance to connect with the outside world.

# Precision-enhanced simplicity

A well-matched drivetrain offers reliable and invigorating performance and handling around town. Safety and performance are integrated better than ever before thanks to computational power and a new platform design.

## Lane Keeping Assist (LKA)

This system keeps the car in the center of the lane. When the car drifts outside of the lane without turn signal light on, automatic steering wheel control is activated to keep the vehicle to stay in the lane.

## High Beam Assist (HBA)

Automatically controls the high beam by recognizing ambient lighting sources and illumination, such as lamps of front approaching cars and preceding cars.

**Drive Mode Select** Transform your driving experience with the Kia Sonet 2024's Drive Mode Select. Choose from Eco for maximum fuel efficiency, Normal for balanced performance, or Sport for a more exhilarating ride with sharper handling and quicker acceleration.

**Power of a beast** At the heart of every new Sonet is an engine throbbing with power. Power that's honed by precision driving dynamics with fuel-efficient engine. Put pedal to the metal, and let every road hear you roar.

**Parking Distance Warning (PDW)** PDW assists your movement by alerting if any object is sensed within a designated distance.

**Horsepower** : 115  
**Max Torque (kgf·m)** : 14.7  
**Transmission** : 6-speed A/T

**Forward Collision-Avoidance Assist (FCA)** FCA is a Driving Safety function that helps avoid collisions with a vehicle, powered two-wheeler, a pedestrian, or a cyclist in front of the vehicle while driving.

**Lane Following Assist (LFA)** This system gives a warning when the turn signal switch detects a lane departure without moving, and automatically assists steering to avoid leaving the lane.

**Rear View Monitor (RVM)** Stay in control with RVM during the movement of your vehicle.

# Gear up for adventure

Maybe you're setting off on your own expedition, or maybe you just like to look prepared for one. The Sonet is available with exterior and interior options and accessories for motorists who are ready to explore the back roads or city boulevards.
